

THE HAUNTING OF HARRY LAUREL Reviews 2014

The Haunting Of Harry Laurel by Margaret M Ford is the third novel I've read by this author. It's a humorous ghost story. I have to say it's not like her other stories. It's certainly outrageous and the warning at the start is well placed. Most books that claim to be hilarious usually just make you smile a few times. But this one really did make me laugh all through.

The Haunting of Harry Laurel

The warning at the beginning of this book that it contains material which may offend persons of a sensitive nature is well deserved. Although the recurring humour is at times rather coarse, it is nevertheless moderately amusing. It has been suggested that this well-crafted story could develop a cult following. Only time will tell, but that could indeed prove to be the case.

The Haunting of Harry Laurel

Having read Margaret Ford's other novels, I found The Haunting of Harry Laurel a bit of a shock, despite the warning at the start of it. It's unlike any ghost story I've ever read before. It is very funny but some chapters made me cringe. I still can't make my mind up if it's a wicked good read or should be banned.

The Haunting Of Harry Laurel

The Haunting Of Harry Laurel by Margaret M Ford is listed as a supernatural spoof. In spite of my reservations I read it through to the end. All that can be said for this book is that the story is entirely original and well written. It is certainly humorous but some parts go beyond the pale!
